

HEAT PRESS MACHINE

No. 1

Applications

- Cleaners, Home interials, Cloths, Sportwear, Pattern fabric, etc

Main Features

- Oil heated press machine for uniform temperature and wider heating surface
- Precut Fabric on transfer paper Roll
- Precise Control for Belt tension and balance by Air Pressure
- Auto take-up system for Fabric, transfer paper and protection paper
- Automatic preheating and turn-off timer
- Useful control panel and Easy Operation

Air Cylinder

Control Panel

Oil Drum

Front take-up

Heat Sensor

Model	MROD - 1835	MROD - 1855	MROD - 3155
Power	AC220/380V 3Phase 21Kw 55/32A	AC220/380V 3Phase 32Kw 83/48A	AC380V 3Phase 65Kw 100A
Speed [Max]	1.7M/Min	3.0M/Min	3.0M/Min
Temperature	Max 230℃	Max 230℃	Max 230℃
Drum Diameter	350mm	550mm	550mm
Drum Length	1800mm	1800mm	3100mm
Felt Width	1800mm	1800mm	3100mm
Machine Size(mm)	2700(L) X 1050(W) X 1750(H)	2700(L) X 1150(W) X 1750(H)	4200(L) X 1950(W) X 1900(H)
Weight	1500Kg	2200Kg	4000Kg
